### **OCBC Group Reports Second Quarter Net Profit of S\$532 million**

***Core net profit rose 65% year-on-year  
to S\$518 million***

***Interim net dividend of 14 cents per share***

Singapore, 8 August 2007 – Oversea-Chinese Banking Corporation Limited (“OCBC Bank”) today reported an increase of 65% in its core net profit to S\$518 million for the second quarter of 2007 (“2Q07”). The strong earnings growth was driven by a 28% increase in net interest income arising from assets growth and better interest margins, and a 50% surge in non-interest income led by higher fee and insurance income.

Compared to the first quarter, core net profit was marginally higher by 2% as the first quarter included larger gains from the sale of investment securities. For the first half of 2007 (“1H07”), the Group achieved core earnings of S\$1,028 million, up 63% year-on-year.

Annualised return on equity, based on core earnings, was 15.4% in 2Q07 and 15.6% in 1H07, significantly higher than the 10.4% in 2Q06 and 10.6% in 1H06. Annualised core earnings per share for 1H07 grew by 66% to 66 cents.

Core earnings exclude one-time gains from the divestment of non-core assets (S\$90 million in 1Q07 and S\$482 million in 2Q06) and tax refunds (S\$15 million in 2Q07 and S\$47 million in 1Q07). Including such gains and tax refunds, reported Group net profit was S\$532 million for 2Q07 and S\$1,179 million for 1H07, and annualised earnings per share for 1H07 was 76 cents.

#### **Second Quarter Revenues**

The Group’s core revenue grew by 37% year-on-year, and 4% from the previous quarter, to S\$1,050 million in 2Q07.

Net interest income rose 28% from a year ago and 10% from the previous quarter to S\$558 million, driven by growth in interest earning assets and higher interest margins. Customer loans grew by 12% year-on-year, and 3% from the previous quarter, to S\$65.3 billion, contributed largely by growth in corporate and SME loans in Singapore, Malaysia, Indonesia and other overseas markets. Net interest margin improved to 2.13%, up 13 basis points from a year ago and 9 basis points from the previous quarter, largely due to lower deposit costs in Singapore and Indonesia.

Non-interest income surged by 50% year-on-year to S\$493 million, contributed mainly by higher fee and commission income, life assurance profits and net gains from investment securities. Fees and commissions rose 53% from a year ago, and 22% from the previous quarter, to S\$217 million, driven by stronger stock-broking, wealth management, investment banking and loan-related income. Profit from life assurance grew 94% year-on-year, and 24% from the previous quarter, to S\$123 million due to healthy underwriting profits and strong investment results. Net gains from investment securities amounted to S\$39 million in 2Q07, up from S\$9 million a year ago, but significantly lower than the S\$104 million realised in 1Q07. Foreign exchange income fell to S\$18 million compared to S\$35 million a year ago and S\$55 million in the previous quarter. Compared to 1Q07, non-interest income fell 3% largely due to the lower gains in investment securities.

### **Second Quarter Operating Expenses**

Operating expenses rose 19% year-on-year to S\$416 million, attributed mainly to higher staff costs and business promotion expenses. Staff costs rose 29% due to higher bonus accruals in tandem with the Group's better performance, higher base salaries, and a 14% increase in headcount mainly in Indonesia and Malaysia. Higher business promotion expenses were incurred in support of the growth in business volumes and the Group's regional expansion.

Compared with 1Q07, operating expenses were higher by 18%, due to higher staff costs, equipment and software costs, and business promotion expenses. The higher equipment and software costs were a result of replacements, and investments in technology to support business expansion.

The cost-to-income ratio for 2Q07 was 39.6%, compared with 45.6% in 2Q06 and 34.7% in 1Q07.

### **Loan Allowances & Asset Quality**

The Group's asset quality continued to improve. Loan recovery efforts yielded a net write-back of S\$16 million in allowances for loans and other assets in 2Q07, compared to a net write-back of S\$5 million in 2Q06 and negligible allowances in 1Q07.

Non-performing loans ("NPLs") fell 9% from S\$1.77 billion as at 31 March 2007 to S\$1.61 billion as at 30 June 2007, while the NPL ratio improved from 2.7% to 2.4%. Total cumulative specific and portfolio allowances amounted to S\$1.68 billion, providing coverage of 104.0% of total NPLs, higher than the coverage of 101.6% at 31 March 2007.

## **First Half 2007 Results**

Core net profit for the first six months of 2007 rose by 63% to S\$1,028 million. Net interest income grew 28% to S\$1,065 million, driven by a 15 basis-point improvement in net interest margin from 1.94% to 2.09% and 19% growth in interest earning assets. Higher fee and commission income, profits from life assurance and net gains from investment securities lifted non-interest income by 47% to S\$999 million. For 1H07, non-interest income accounted for 48.4% of the Group's total income, up from 44.9% in 1H06.

Operating expenses increased 17% to S\$768 million, attributable mainly to higher staff costs and business promotion expenses. The cost-to-income ratio for 1H07 was 37.2%, lower than the 43.6% for 1H06.

Continued loan recovery efforts resulted in a net write-back of S\$15 million in allowances for loans and other assets for 1H07, compared to a net writeback of S\$12 million in 1H06.

## **Capital Position**

As of 30 June 2007, the Group's total capital adequacy ratio ("CAR") was 14.6% and Tier 1 CAR was 12.5%. These were lower than the ratios of 15.4% and 13.1% respectively as at 31 March 2007, due to the growth in risk weighted assets.

During the second quarter, the Bank bought back approximately 1.3 million of its ordinary shares for S\$12 million, as part of its third S\$500 million share buyback programme which commenced in June 2006. As at the date of this announcement, S\$268 million have been utilised to purchase approximately 39 million shares under the programme.

## **Interim Dividends**

An interim net dividend of 14 cents per share (2006: 11 cents tax-exempt), or approximately 19 cents less 27% Malaysia tax, has been declared. The Bank is utilising its Malaysia tax credits for the interim dividend as these credits, which benefit some Malaysia resident shareholders, cannot be utilised after 2007. Singapore resident and other non-Malaysia resident shareholders will receive a net dividend of 14 cents, which is exempt from Singapore tax.

The net dividend for 1H07 is 27% higher than the 1H06 dividend (11 cents tax-exempt) and 17% above the 2H06 dividend (12 cents tax-exempt). The dividend payout will amount to an estimated S\$432 million, or approximately 42% of the Group's core net profit of S\$1,028 million for 1H07.

## FINANCIAL SUMMARY

OCBC Group prepares its condensed interim financial statements in accordance with the Singapore Financial Reporting Standard (“FRS”) 34 *Interim Financial Reporting*, including the modification to FRS 39 *Financial Instruments: Recognition and Measurement* requirement on loan loss provisioning under Notice to Banks No. 612 “Credit Files, Grading and Provisioning” issued by the Monetary Authority of Singapore. The accounting policies and methods of computation for the current financial period are consistent with those applied in the previous financial period, except for the following FRSs which were applied with effect from 1 January 2007:

FRS 40	Investment Property
INT FRS 108	Scope of FRS 102 Share-Based Payment
INT FRS 109	Reassessment of Embedded Derivatives
INT FRS 110	Interim Financial Reporting and Impairment

Under FRS 40, investment property may be measured using the fair value model or the cost model. The Group has adopted the fair value model for investment properties held under life assurance funds, and the cost model for other investment properties. Other than the adjustments made on the life assurance funds on 1 January 2007, there is no overall impact to equity or profit and loss on adoption of the above models under FRS 40. Investment properties held under the life assurance funds are included as part of the life assurance fund investment assets, consistent with last year’s presentation. Other investment properties are now shown separately from property, plant and equipment and the relevant amounts of cost, accumulated depreciation and impairment, including prior year comparatives, have been reclassified accordingly.

The INT FRS 108 and INT FRS 109 are mainly clarifications on the application of FRS 102 *Share-Based Payment* and FRS 39 *Financial Instruments: Recognition and Measurement* in respect of accounting for embedded derivatives and have no significant impact on the Group’s financial statements.

The INT FRS 110 prohibits the reversal of an impairment loss recognised in an interim period during the financial year in respect of goodwill, an investment in an equity instrument or a financial asset carried at cost. This standard does not have any significant impact on the Group’s financial statements.

### **Financial Review**

The strong earnings growth was driven by a 28% rise in net interest income and a 50% surge in non-interest income. For the first half of 2007 (“1H07”), the Group achieved core earnings of S\$1,028 million, up 63% year-on-year.

Annualised return on equity, based on core earnings, was 15.4% in 2Q07 and 15.6% in 1H07, significantly higher than the 10.4% in 2Q06 and 10.6% in 1H06.

Core earnings exclude one-time gains from the divestment of non-core assets (S\$90 million in 1Q07 and S\$482 million in 2Q06) and tax refunds (S\$15 million in 2Q07 and S\$47 million in 1Q07). Including such gains and tax refunds, reported Group net profit was S\$532 million for 2Q07 and S\$1,179 million for 1H07, compared to S\$795 million for 2Q06 and S\$1,113 million for 1H06.

## NET INTEREST INCOME *(continued)*

Net interest income increased by 28% to S\$558 million in 2Q07, driven by growth of 20% in interest earning assets and better interest margins. Net interest margin improved from 2.00% in 2Q06 to 2.13% in 2Q07, due largely to lower deposit costs in Singapore and Indonesia.

Compared with 1Q07, net interest income was up by 10%, mainly due to growth in loan balances and higher interest margin. Net interest margin improved by nine basis points from 2.04% in 1Q07.

- Pre-tax divestment gains of S\$92 million for 1Q07 and 1H07, and S\$515 million for 2Q06 and 1H06 are not included.
- n.m. - not meaningful

Non-interest income, excluding divestment gains, increased by 50% to S\$493 million in 2Q07, contributed mainly by higher fee and commission income, life assurance profits and net gains from investment securities. Fees and commissions rose 53% to S\$217 million, with strong contributions from stock-broking, wealth management, investment banking and loan-related income. Profit from life assurance grew 94% to S\$123 million due to healthy underwriting profits and strong investment results. Net gains from investment securities increased from S\$9 million to S\$39 million, while foreign exchange income declined from S\$35 million to S\$18 million.

Compared with 1Q07, non-interest income was marginally lower by 3%, as higher income from fees, commissions and insurance was largely offset by lower net gains from investment securities and foreign exchange income.

Non-interest income accounted for 46.9% of the Group's total core income in 2Q07, compared with 43.1% in 2Q06 and 49.9% in 1Q07.

The Group's operating expenses increased by 19% to S\$416 million in 2Q07, attributed mainly to higher staff costs and business promotion expenses. Staff costs increased on higher bonus accruals in tandem with the Group's better performance, higher base salaries and increased headcount. Group headcount was 17,277 as at 30 June 2007, an increase of 14% year-on-year, with most of the increase coming from Indonesia and Malaysia. Higher business promotion expenses were incurred to support the growth in business volumes and the Group's regional expansion.

Compared with 1Q07, total operating expenses increased by 18%, mainly due to higher staff costs, equipment and software costs, and business promotion expenses. The higher equipment and software costs were a result of replacements, and investments in technology made to support business expansion.

The cost-to-income ratio was 39.6% in 2Q07, compared to 45.6% in 2Q06 and 34.7% in 1Q07.

The Group continued to achieve strong recoveries from non-performing assets. This resulted in a net write-back of S\$16 million in allowances for loans and other assets in 2Q07, compared with a net write-back of S\$5 million in 2Q06 and negligible allowances in 1Q07.

A net write-back of S\$18 million in specific allowances for loans was recorded in 2Q07, compared with a net write-back of S\$5 million in 2Q06. This was mainly due to loan recoveries and upgrades as collateral values improved.

As of 30 June 2007, the Group's total capital adequacy ratio ("CAR") was 14.6%, compared with 15.4% in March 2007 and 17.9% in June 2006. The year-on-year decline in total CAR was mainly due to the growth in risk weighted assets and the commencement of annual amortisation of the Bank's Tier 2 subordinated debt in September 2006. Tier 1 CAR was 12.5%, down from 13.1% in March 2007 and 13.7% in June 2006 as a result of the higher risk weighted assets.

In 2Q07, the Bank bought back approximately 1.3 million of its ordinary shares for S\$12 million, as part of its third S\$500 million share buyback programme which commenced in June 2006. As at the date of this announcement, S\$268 million have been utilised to buy back approximately 39 million shares under the programme.

### Consumer Banking

Consumer Banking comprises the full range of products and services offered to individuals, including deposit products (checking accounts, savings and fixed deposits), consumer loans (housing loans and other personal loans), credit cards and wealth management products (unit trusts, bancassurance products and structured deposits).

For 1H07, operating profit of the consumer segment grew by 53% to S\$314 million, as broad-based revenue growth of 23% and lower loans allowances more than offset increases in expenses. For 2Q07, operating profit increased by 75% to S\$159 million.

### Business Banking

Business Banking provides a full range of financial services to business customers, ranging from large corporates and the public sector to small and medium enterprises. The products and services offered include long-term loans such as project financing, short-term credit such as overdrafts and trade financing, deposit accounts and fee-based services such as cash management, trustee and custodian services.

Business Banking's operating profit increased by 34% to S\$497 million in 1H07 and by 42% to \$270 million in 2Q07. The improved performance was a result of increase in net interest income due to volume growth, strong growth in fee income as well as higher recoveries from non-performing assets.

## PERFORMANCE BY BUSINESS SEGMENT *(continued)*

### Treasury

Treasury engages in foreign exchange activities, money market operations, fixed income and derivatives trading, and also offers structured treasury products and financial solutions to meet customers' investment and hedging needs.

Treasury's operating profit rose 93% from 1H06 to S\$172 million in 1H07, and 90% from 2Q06 to S\$84 million in 2Q07. The stronger performance was a result of significantly higher net interest income due to volume growth and higher trading income from dealing securities, which more than offset the increase in expenses.

### Insurance

The Group's insurance business, including its fund management activities, is carried out by 87%-owned subsidiary Great Eastern Holdings ("GEH"), which provides both life and general insurance products to its customers mainly in Singapore and Malaysia.

For 1H07, operating profit after allowances and amortisation of intangible assets from GEH grew by 68% to S\$315 million, driven by higher insurance income. For 2Q07, operating profit after allowances and amortisation of intangible assets registered an increase of 96% to S\$163 million.

After minority interests and tax, GEH's contribution to Group net profit was S\$233 million in 1H07 and S\$117 million in 2Q07, compared with S\$134 million in 1H06 and S\$65 million in 2Q06.

### Others

The "Others" segment comprises Bank NISP, corporate finance, capital markets, property holding, stock brokerage and investment holding, support units, other investments and items not attributed to business segments.
